Education

International Institute Of Information Technology Bhubaneswar

Bachelor of Technology in Computer Science

Aug 2023 – July 2027

Bhubaneswar, Odisha

Bihar Public School Siwan

Central Board of Secondary Education (+2)

May 2020 – March 2022

Siwan, Bihar

Experience

Freelance Developer & Data Analyst

Dec 2024 – Jan 2025

Dr. Anurag, University of Calgary

Remote

- Developed a responsive **portfolio and blog website** based on client requirements, organizing content and implementing a clean user interface.
- Processed and analyzed large datasets using **Python, NumPy, and Pandas**, creating structured analysis sheets and summaries.
- Performed **exploratory data analysis and visualization** using Seaborn to identify trends and patterns in the data.

Projects

CareerPilot - AI-Powered Job Application & Career Assistant | *MERN, Gemini, LangChain, RAG*

[GitHub](#)

- Developed a **full-stack career management platform** for tracking job applications, interview stages, and career tasks with integrated AI assistance.
- Integrated **Google Gemini** for resume analysis, interview preparation, coding assistance, and personalized career guidance with **multi-session chat** and persistent conversation history.
- Developed a **RAG-based Resume & Job Description Analyzer** using **LangChain, Gemini embeddings, semantic search, and MongoDB Atlas Vector Search** to identify skill matches, skill gaps, and resume improvement areas.

Hostel-Connect - Hostel Management System | *MongoDB, Express.js, React.js, Node.js*

[GitHub](#)

- Developed a **MERN-based hostel management system** with dedicated admin and student dashboards.
- Implemented modules for **student records, attendance, complaints, mess services, invoice generation, and suggestion tracking** using REST APIs and MongoDB.
- Built a responsive React.js and Tailwind CSS frontend with an Express.js backend following the **MVC architecture**.

Jarvis - AI Voice Assistant System | *Python, Automation, APIs*

[GitHub](#)

- Developed an **AI-powered voice assistant** capable of executing voice commands, automating system tasks, and improving user productivity through natural language interaction.
- Implemented features including **web search, application launching, music playback, and system automation** using Python and external APIs.
- Designed a **modular and extensible architecture**, enabling seamless integration of new commands and future AI capabilities.

Technical Skills

Languages: Python, C/C++, JavaScript, SQL, HTML

Frameworks & Technologies: React.js, Node.js, Express.js, Redux, Tailwind CSS, REST APIs

AI & ML: RAG, LangChain, Gemini, Embeddings, Semantic Search, Prompt Engineering

Databases: MongoDB, MySQL, PostgreSQL

Developer Tools: Git, GitHub, VS Code, Anaconda

Libraries: NumPy, Pandas, Matplotlib, Seaborn, Mongoose, JWT, Socket.IO

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

Achievements & Certifications

- Solved **1000+** Data Structures and Algorithms problems across **LeetCode, GeeksforGeeks, and Codeforces**.
- Achieved a **Global Rank of 638** in **LeetCode Biweekly Contest 188**.
- Highest **Codeforces Rating : 1293 (Pupil)**
- Secured **Top 5** position among **200+** participants at the **D3 Hackathon 2024**, IIIT Bhubaneswar.
- Earned the **Agentic AI Certified Foundations Associate** credential from **Oracle**, with hands-on exposure to **LangChain, OpenAI Agents SDK, and MCP** — [Certificate](#) — [Badge](#).
- Earned the **Redis Associate Developer** certification — [Certificate](#).
